

Aulonocara hansbaenschi

Contributor	Anthony Nemeth
Genus	Aulonocara
Common Name	Baenschi, Blue Peacock, Malawi Peacock
Other Names	
Similar Species	Aulonocara nyassae
Origin	Lake Malawi
Habitat	
Size	10 cm
Water Temp.	25-28 °C
Water pH	7.5-8.0

Description

Almost identical in shape to the Nyassae. Dominant male will have an orange shoulder with blue dorsal stripe and specks of hidden blue on mouth.

General Care

Extremely placid. Likes to swim by the front gracefully. Spends most of it's time in plain view. Feed flakes, pellets, and worms don't hurt
